السلام عليكم

Date: Saturday 01st December 2018

Yawm al-Sabt 22 Rabiul-Awwal 1440

Assalaamu 'alaykum wa rahmatullahi wa barakatuhu

Dear Parents / Guardians,

Dhuhr Salah

Congregation just after lunch break in each class. Can parents please try and ensure students come to madrasah with wudu or have in place the right footwear for masah.

FECharity Week

Alhamdulillah as FEC community we were able to raise together:

••• **£4042.00** ••• Well done everyone Masha'Allah!!!

SALAH LEARNING DEADLINE – 12th / 13th January 2019

The Following 4 classes must learn and revise their salah memorisation and method of prayer by the above dates. There is ample time and they must start now if they haven't reached the salah level in their memorisation books already. There will be an assessment on the above dates:

- **Zaynab Evelyn Cobbold** (Sunday)
- **Tashkopruzade** (Saturday)
- **Zheng He** (Sunday)
- **Nana Asma'u** (Saturday)

FECycle to Madrasah Weekend

This weekend students are encouraged to cycle to madrasah and students bringing in their bikes can leave them in the 'playground designated area' (staff will be present to show you) **and your child will receive an orange paper to give to their teacher stating that they will be participating in FECycle week.** During the lunch break students with bikes will be playing fun cycling games with a qualified cycling instructor (**please do not forget helmets**).

MINECRAFT

The Prophet Project 2018 –

DEADLINE & DATE FOR PRESENTATIONS:

- **Saturday 26th January 2019 (Saturday Class)**
- **Sunday 27th January 2019 (Sunday Class)**

The concept behind this project is to allow and facilitate for our students to approach the life of the Prophet (PBUH) from their own life experiences, so it is not only fun but most importantly we hope that this can help in making the life of the Prophet (PBUH) relevant for our children.

PLEASE READ THE ATTACHED NEWSLETTER FOR THE PROPHET PROJECT (ORANGE SHEET)

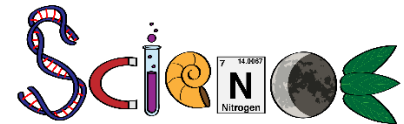

Evolution, Science & Islam | Event – Saturday 5th January 2019

Alhamdulillah, this is the continuation of our Islam & Science series where we bring **Academic discourse to grassroots**. Further details to be confirmed.

Note: Compulsory for Year 9 + students from classes 'Zainab Evelyn Cobbold & Tashkopruzade'

Lecture 1: Science & Islam

Shaykh Usman Ali

Synopsis:

Shaykh Usman will deliver a short introductory lecture on scientific activity from Prehistory, Ancient History, the Middle Ages through to the Modern Age with a particular focus on Islamic Science and Renaissance Europe.

It will address the question of whether Muslim scientists were the harbinger of the scientific revolution.

Brief Biography:

Shaykh Usman Ali holds an *Alimiyyah* degree and has taught at various Islamic institutes. He is also an Associate Lecturer and a PhD candidate at the University of Portsmouth and holds a Chartered Scientist Award. Currently, he works as a Senior Specialist in Haematology with clinical laboratory and research roles.

Lecture 2: Evolution & Islam

Dr Shoaib Malik

Synopsis:

Dr Shoaib Malik will deliver a lecture on '**A Ghazzalian Interpretation of Evolution**'. In this talk Dr Shoaib will be taking imam Ghazzali's theological positions and utilising them to address the question of evolution from a metaphysical perspective.

Brief Biography:

Dr Shoaib Malik is formally trained as a chemical engineer and is an assistant professor at Zayed university in Dubai where he teaches the natural sciences. He also has had some alimiyya training and is currently doing an MSc in philosophy of science and religion. His research is specifically on Islam and Science, New Atheism, and Theology.

Wassalam

Warmest Regards,

Ustadh Hamid

Founder & Head Teacher
