How to set up a **weebly** account

Go to www.weebly.com

Sign up for a **free account** - don't forget to take a note of your *password*.

Thereafter every time you use it, you simply log in with those details.

Once you have logged in, you can begin to set up your site. The Weebly website will walk you through this. Use the tabs at the top / side of the screen (**build, design, pages, store, settings**) to personalise your site.

Spend some time exploring the different options and getting familiar with the site.

Once you are happy with the layout, you can begin to add texts, photos, forms, YouTube links and much more. **Remember to click "publish"** in the top right of your screen when you are ready to share your work with the world!

Send a copy of your Weebly link to me info@fatimaelizabethphrontistery.co.uk and you can also share it with family and friends once finished.

Remember for the Online Prophet's Project you will need to use the 'Share Screen' function on Zoom to walk us through your website.
